HUMANITY

2017  
FIRST QUARTER REPORT

# THE PRESENT SCENERIO OF POLITICAL SYSTEM OF NEPAL

Nepal, has been practising the unitary system before long time ago through which all the development process and administrative work has been taken place . but after the mass movement of 2006 , there has aappeared the new hope for the people to start a new way of political system in nepal which have played the vital role to establish federal republic democratic system in nepal . In nepal the political leader have realized that according to time changed the political system needs to change for all rounder of development to full the neeed of every citizen. To bring the federal republic government in nepal the communist party (maoist) have played the vital role in nepal . They fought with government with armed weapon for ten year to bring the incusive development process of every caste , religion, culture . To end up this battle with government they had a tweleve point agreement on 2006. After the interim constitution was brought in 2006, this constutuion wwas just brought for instance, later the first constitution election was held 2007 in which the Communist Party (Maoist) became the first party of nepal which shows that every nepelese citizen has new hope to this new rebellion party, but this party could not meet the expectation of every people as result the communist party became the third party and first was Nepali Congress party .

The new constitution was brought in 2015 which create the new hope to the people of nepal , now there will be sustainable development in nepal . Although there was some unsatisfaction regarding this constitution to some political parties like madesi party. According to the constitution of 2015 .nepal is going to practise new political system that is federal republic government. its been a 20 year that nepal couldn't have the local election which has effect the development process of nepal . We had a election of local government in 2017 to bring the representative to continue the local dvelopment process. We the people are hopeful that the development process will go smoothly because that central power have been decentralized by federal republic system . now the contry have seven state including five development region. So this is the general situation of our country , We would like to inform other information regarding the political situation of our country in coming day too because we all are team member and I think that our duty too.

# MONSOON SEASON IN NEPAL

Climatic conditions of Nepal vary from one place to another in accordance with their geographical features. In the north summers are cool and winters severe, while in the south summers are tropical and winters are mild. Nepal has five seasons: spring, summer, monsoon, autumn and winter.

In the Terai (south Nepal), summer temperatures exceed 37° C and higher in some areas, winter temperatures range from 7°C to 23°C in the Terai. In mountainous regions, hills and valleys, summers are temperate while winter temperatures can plummet under sub zero. The Himalayas act as a barrier to the cold winds blowing from Central Asia in winter, and forms the northern boundary of the monsoon wind patterns. Eighty percent of all the rain in Nepal is received during the monsoon (June-September). Winter rains are more pronounced in the western hills. We know that rainy Season does a lot of good to us. It removes the heat of summer. We can have the cool environment and refreshment in monsoon season. Along with that we have many problem in monsoon reason our road is not well , the government have not taken this seriously , every the road is not well constructed , its muddy everywhere , people get difficult to walk , the cloth that we wear easy get mud which makes so uneasy , its chaos situation in nepal , during monson seasonDuring the Rainy Season, we face a lot of difficulties. Paths become muddy and slippery. During heavy rain communications are cut off. Some hamlets on the low land get water locked. People cannot go to work. Day labourers cannot earn their bread. Students cannot go to school. Cattle cannot go to gaze. Shop-keepers cannot get a purchaser. Excessive rain knocks down the county houses. People die of thunder-stoke and snake-bit. Children suffer from cough and cold. Stomach trouble are very common in this season. Cholera breaks out in many places and carries off heavy toil of life. Rain bring flood in rivers. Flood breaks the embankments and sweeps always village after village. A lot of men and cattle are drowned. Flood carries sand to the corn-fields and turns them barren.

This is the general information of our country about monsoon region .

# THE GENERAL SITUATION OF NGO IN NEPAL

The objective of NGO/INGO is to provide and bring the positive change in people life through socially , economically. They are established to bring the positive change in the life of people who socailly , culturally, and economically backward. With , these kind of motivation the non profitable organization are established . In nepal , the government does n't provide the fund to established such kind of non profitable organization . To establish the organization we have to depend upon two thing , one is that the sponsor which is hard to get , but sometime when we get the sponsor also it wont work sustainably, so it bring the situation to shut down the organization and other is the government support which is hard to get , for to the get support they will ask the bribe , and if we don't provide the bribe as they needed , they will create problem saying that your document incomplete to get the support. To get the support for non profitable organization the other alternative way is , we need to have a strong link of political connection or either we have to be the active member of powerful political party. In other word we can say that in nepal most of non profitable organization are run by the political party , so they keep their person in that kind of organization to have economically benefit .Rest of them who don't have the strong political connection and money to provide to the beaurocade wont be able the run the non profitable organization . In nepal not every non profitable organization are corrupted but most of them are corrupted which has the created the serious problem to the person who really take this social work as a true work of human welfare .

So in Nepal, it is very difficult to run the non profitable organization without the foreign sponsorship , and we are very greatful toward the sponsor like you who has support to run this kind of organization for the betterment of disable children and along with helping to provide the informal education to the different needy like women education , skill training and children education in health. We would like to thank everyone from our team who has been our partner of this organization.

## CHILDREN EDUCATION REPORT OF CDCA

After first term result the class is running continuously. 10 class students need the tuition because it is compulsory for the entire student and this is the last year for them to leave the school and join the higher education. Aita Ram Gurung and Rupak Bohora are waiting for their result. Askal Chaudhary just gave the exam of grade 11 and started the join the grade 12 and her class is running. Mithun Rai board exam is coming near. So, he is preparing for the board exam

# FIRST TERM RESULT OF CHILDREN

The first term examination of the children has been completed. The school have assured us that they have been improving in their education as well as other extracurricular activities. Some of the children do not got the expected result. The system of evaluation is changed from this year which belong to inclusive education system. . Some of the children are older than the level they are studying at presesnt. We are applying new methods and ways to improve the educational standard of the children.

| S. NO | NAME                | GRADE   | GRADE POINT AVERAGE | AVERAGE GRADE |
|-------|---------------------|---------|---------------------|---------------|
| 1     | Manish Rai          | nursery | 3.64                | A+            |

## FLOOR CARPETING & STORE FURNITURE MAINTENANCE

We started to make the different facilities in the building gradually.

The building should be made facilitated which can be air, water and sound proof. The installation of the false ceiling was the best alternatives. We have made request to the supporters and started the campaign. Mr. Rossetto Masimao of Italy put forward his hands for the support and we have put the false ceiling which helped us to be in safe and facilitated roof. After the installation of the ceiling the children get rid of the unnecessary sounds and the problem of heat and cold.

The false ceiling was installed in all the rooms and we have got the expected benefits from that.

The carpeting of the floor was another important things as we have to fight with the dust and the garbage that was produced from the floor. We have one storied flat roofed building with open ground and the dust from the ground directly entered in to the rooms . The carpeting was the most needed things which seems to be costly. We have put the carpet in all the floors which have helped us in keeping the building safe and clean.

After the installation of the carpet the problem of dust is solved and there is easiness and convenience for meditation

## VISIT TO HRDC HOSPITAL: MAILA GHALE & SAMJHANA RAI FOR MAINTENANCE OF ARTIFICIAL LEG

The artificial leg is old and small so we need to change time to time according to their growth..Recently this week Maila Ghale was taken to hospital for their regular check for his leg, but this time he started to feel some problem regarding his artifical legs . After we visited the hospital the docter said due to the increase in his height , he was feeling uncomfortable with his artificail leg. the docter sugested to replace his artificial leg with the new one. And with Samjhana Rai, she is not having any problem regarding her artificial leg, this time there was no problem with her . the doctor said there is no need to worry. The picture of Maila Ghale and Samjhna Rai is given below.

As same as Maila Ghale condition, Manish Rai and Bhumika Adhikari have the same problem . They all have got the artificial leg. The two other have one one artificial leg but with Bhumika Adhikari two artifical leg are kept. Manish rai and Bhumika Adhikari frequently visit orthopaedic hospital which is at Narayantar where they provide them physiotherapy and other exercise related to their leg for to have improvement in their legs and they also check their progress report regarding their leg. The picture on the left side is Manish Rai and on the right side picture is Bhumika Adhikari.

CDCA HAS  
PARTICIPATED &  
CONDUCT THE  
PROGRAMME  
FOR SANITATION  
IN COMMUNITY  
IN WORLD  
ENVIRONMENT DAY.

CDCA has participated & conduct the programme for sanitation in community in World Environment Day. This programme was organized with coordination with local government municipality and other local organization which help to make this sanitation campaign successful. By this programme the cdca children got the opportunity to involved in public participation programme where they got the related knowledge about sanitation.

## PLAYGROUND.

The playing ground of cdca is 90% completed . After fully completing this playing ground the cdca children will have playing ground where we can run different sport activities for cdca children . And along with that the other child who have physical problem , they will have the physiotherapy. this playing ground will be more benefial for the cdca children for to have recreational activites and intertainment.

## PHYSIOTHERAPY & OFFICE ROOM FURNITURE REPAIR & INSTALLATION

In this physiotherapy cdca children will have the physiotherapy according to the children physical problem. In this physiotherapy room we don't have the sufficient euipment for to provide the complete exercise for the children. We have kept simple simple equipment to run physiotherapy. We have got walker, massaging ball , electronic massage , leg vibrating machine . With this we are providing physiotherapy to the children who have physical problem . Due to the financial problem we are getting problem to bring necessary equipment for the physiotherapy.

# NON FORMAL CLASS & TAILORING CLASS IS SMOOTHLY RUNNING. TAILORING CLASSES

The new sensations tailoring class is running for 1 years and it's already 4 month . In this 4 month the women learn the basic things. Out of 28th item they already learn the 6th item & every 4 month there is exam. So exam was done and we are waiting for their result. After 10 days leave the class will be running continuously

## NON FORMAL CLASS:

Non formal class is also going well. We are making visit every 1 month in the class and the exam is taken in every 4 month. Students are regular in the class. Most of them are able to write their name and some are new. So they are learning from the beginning.

*We bought new TV for the children because old is damage which was bought 3 years ago.*

## AGRICULTURE IN CDCA

From this year we are trying to work in the agriculture according to the season for the self dependent and learning purpose of our children.. This is not professional agriculture which is based on money making . We started this agriculture that cdca children to get fresh veteable according to the season which has help us to reduce the cost in vegetable , Along with that children get fresh vegetable . We have started growing tomato , garlic , pumkin , , greenary lettuce and so on. This has help to provide the informal education about the general knowledge about the agriculture

## LIBRARY

Library is improved & there are lots of books to read but computer is not managed there. The basic preparation of the library was installed. The books related to the education of the other motivational sectors. The books from the famous writers from different countries are bought and put in the library. The cupboard and book shelves is installed in the shelter with the study table. The children are spending their quality time in the library.

## NEW ELECTRICITY LINE INSTALLED

We have installed new electricity line for organization. Before this we had borrowed electricity from private home.

*Support and donation:  
You can directly support and donate us for the you are always welcome*

*Visitors from different organization*

## VEHICLE RENTAL FOR CHILDREN TRANSPORTATION

Children transportation on hire. We have hire taxi for transportation because the school is far to reach . The disable children of cdca get difficult to go school , so to provide facilities to children , we have hire taxi for short period , In coming days , cdca have planining to get own vehicle to provide facilities to disable children of cdca.

Our organisation most challenges is being growth of children that bring more complicated and more difficult to guide them i.e. when they are small it is easy to guide them but when they get older is difficult to guide and control them.

A grateful heart is a beginning of greatness. It is an expression of humility. It is a foundation for the development of such virtues as prayer, faith, courage, contentment, happiness, love, and well-being.
